Inspiration

My inspiration for the fruit poster series stemmed from the impending arrival of summer. When I think of summer, the first thing that comes to mind is the scorching heat.

Regardless of the season, in Saigon, we often experience just two: hot and incredibly scorching. It's the kind of heat that leaves your skin sun-kissed and your hair golden. That's how the idea for this fruit poster series was born.

I hope that when people look at it, they can experience a refreshing visual respite from the sweltering weather, even if only for a moment.
